MURDERER AT HOSPITAL

Undergoes Operation In At-
tempt to Save His Life—
Negro Physician Shot By
Wife—Colored Woman
Dies at City Hospital
From Bullet Wound.

(ASSOCIATED PRESS TELEGRAM)
Springfield, O., April 26.—With
his young wife, Mrs. Jessie Walters
and two daughters, Ruby, aged two
years and Virginia, aged four months
lying in the morgue here, the alleged
victim of his own hand, Clarence
Walters, 22, suffering from a
self-inflicted bullet wound, is under-
going an operation at the City hospi-
tal today in an effort to save his
life. Walters, supposed to have lost
his reason, is thought to have mur-
dered his two children Saturday night
and then shot himself. Should he
survive, he will be charged with first
degree murder.

The horrible tragedy was discov-
ered late Sunday morning. The
bodies of the wife and children,
smothered with blood were found ly-
ing in their beds, while the husband
was wandering around the house in a
semi-conscious condition. Today it
was stated that an operation might
save his life.

The triple murder increased the
number of murders in this city to
five during the last 24 hours, being
a wave of crime that has not been
equalled in years. Dr. Henry John-
son, negro physician, was murdered
Sunday morning being shot by his
wife. Death was instantaneous.
Jealousy is given as the cause. Mrs.
Dearest Johnson, negro, died at
the city hospital Sunday from a bul-
let wound. The police are seeking
her husband and another man who
are thought to know about the crime.

Arrangements were made today
for a triple funeral service tomorrow
over the bodies of Mrs. Walters and
her two children. The Walters had
a large number of acquaintances,
and the tragedy has created a decid-
ed sensation.

Police officials were at work today
in an effort to find a motive for the
crime. So far they have been unable
to find any tangible reason. Walters
has been suffering from a religious
mania for years and became greatly
excited when one would not agree
with him. Citing "Go Yea and
preach," as given in the Bible, he
would make his appearance at con-
ventions in churches and other gather-
ings and insisted on preaching be-
fore the audiences. In addition to
this, it is known that he has been
worrying about a position. All
these things are supposed to have
entered into the crime.

Coroner Howard Austin will prob-
ably conduct an inquest within the
next few days.

DEMONSTRATIONS ACCOUNT OF THE FOOD SHORTAGE

(ASSOCIATED PRESS TELEGRAM)
Rome, April 25.—Via Paris, April
26.—Eighty-seven more arrests for
demonstrations resulting from the
shortage of food are reported from
Trieste. The people are said to be
living almost entirely upon potatoes,
a large supply of which has been re-
ceived. Serious disorders have been
reported from Capo d'Istria (a fortified
town in Istria, situated on a rock in
the Gulf of Trieste), as well as
Arco and Riva in Trent.

DIES AFTER A SHORT ILLNESS.
(ASSOCIATED PRESS TELEGRAM)
Canton, O., April 26.—Dr. Thur-
man C. Siffert, 46, president of the
Canton Medical society, died at a
hospital last night, following an
illness of less than a week. Death
was caused by acute yellow atrophy
of the liver, an uncommon ailment,
according to the attending physician.
Dr. Siffert was a graduate of the
Cleveland college of Physicians and
Surgeons.

ARRESTED FOR HIGH TREASON.
(ASSOCIATED PRESS TELEGRAM)
Venice, April 25.—Via Paris, April
26.—Charged with attempting to
sell to a foreign power railroad plans
for the mobilization of the Italian
army, John Schieller, an inter-
preter, and Ernesto Crescenzi, a de-
signer employed in the technical of-
fices of the Italian railways, have
been arrested for high treason.

The Greatest Terror of the War.

This is the terror of the war, the German 42-centimeter shot, guar-
anteed to tear up the strongest fort so far built. In fact, it is believed
engineers have given up hope of making a fort so strong it will hold
against this shot.

The illustration shows the shot in comparison with some of those of
French guns. It is sixteen and one-half inches in diameter and sixty-
four inches long. The French shots are less than three inches in diam-
eter.

Number of Charitable Organizations In Paris Are Gigantic Swindles

(ASSOCIATED PRESS TELEGRAM)
Paris, April 26.—An exhaustive in-
quiry conducted by the judicial au-
thorities of Paris as the result of com-
plaints made by the public has re-
vealed, the Matin says, that out of 147
charitable organizations formed since
the war began, 76 are swindles. Thirty-
five of them are reported to be con-
ducted by men who were released
from prison just before or after mobi-
lization.

Two of the "philanthropists" in
particular attracted the attention of
the investigators. While they were
destitute when the war began, they
now have handsome town and coun-
try residences, luxurious automobiles
and are the hosts at sumptuous din-
ners. The receipts of their "charities"
are said never to have fallen below

2,000 francs (\$400) a day since they
began operations in September.

It also has been discovered, ac-
cording to the Matin, that among these
exploiters of the public are several
German and Austrian who were suc-
cessful in gaining their release from
concentration camps.

Marguerite Fauchet, who conducted
the inquiry, in his report divides
these fraudulent enterprises into two
classes. The first is described as
purely commercial.

The humblest of these organizations
is said, nets at least 500 francs
(\$100) daily.

Second class sends out collectors
who are given thirty per cent of what
they get as a commission. Some of
these collectors are said to have ad-
mitted to making from 100 to 150
francs (\$20 to \$30) a day. Prosecu-
tions will begin, the Matin says.

COMMERCE

IN PROVINCE OF TRENT IS PAR-
ALYZED AND AGRICULTURE
IS AT A STANDSTILL

Caused by Lack of Workmen Who
Have Been Called to the Colors
—Silkworm Industry Threat-
ened.

(ASSOCIATED PRESS TELEGRAM)
Verona, Italy, April 25.—Via Paris,
April 26.—Dispatches received from
the frontier describing conditions in
the province of Trent, state that
commerce and industry are paralyzed
and agriculture at a standstill be-
cause of the lack of workmen, 40,000
having been called to the colors. All
horses and oxen have been re-
quisitioned.

The lack of sulphate of copper used
to kill parasites, which infect the
mulberry tree, has seriously threat-
ened the silk-worm industry, one of
the chief resources of that section.
Austrian military authorities are
said to be rapidly completing their
preparations for defense. Twelve
thousand troops are quartered at
Trent, 4,000 at Rovereto, 4,000 at
Riva and 15,000 altogether at vari-
ous smaller places.

OUTLOOK

NOT BRIGHT FOR PEACEFUL SO-
LUTION OF AUSTRO-ITALIAN
DIFFICULTIES

Prince von Bielow is pessimistic and
States that the Situation is Far
From Encouraging.

(ASSOCIATED PRESS TELEGRAM)
Paris, April 26.—A diplomat ac-
credited to the Quirinal, who re-
quested that his name be not dis-
closed, told the Matin's Geneva cor-
respondent that in a conversation
with Prince von Bielow on April 19
the German ambassador appeared
pessimistic over the outlook for a
peaceful solution of the Austro-Ita-
lian difficulties.

"The situation is obscure," Prince
von Bielow is quoted as saying.
"and I expect no good can come
from it. Italy's pretensions are such
that it is impossible for Austria to
accept them. On the other hand
Italian military preparations are as-
suming such proportions that the hy-
pothesis of simple diplomatic pres-
sure becomes inadmissible. Evident-
ly the object of the negotiations was
to gain time."

ROOSEVELT CONSULTED SEN. PLATT

Regarding the Appointments
Which Were Made By
Him at Albany

CONFIDENTIAL LET-
TERS READ TODAY
IN COURT

COLONEL RESUMES STAND

Making Fifth Day for Him
In the \$50,000 Libel Suit
Brought By William
Barnes—Personal Allu-
sions to Gov. Hughes In
the Exchange of Letters.

(ASSOCIATED PRESS TELEGRAM)
Syracuse, N. Y., April 26.—A
series of confidential letters taken
from the files kept by the late
Thomas C. Platt, while he was rep-
resenting the state of New York in the
United States senate, were today
read to the jury trying William
Barnes' suit for alleged libel against
Theodore Roosevelt in the supreme
court here today. Some of the let-
ters were signed by Senator Platt
while others were signed by Col.
Roosevelt. In nearly all of them,
the writers discussed candidates for
office in the state government and
in reply to a question by Mr. Barnes'
counsel, the former president said
without the slightest hesitation that
he consulted freely with Senator
Platt about the affairs at Albany
and realizing at all times that he
was the "boss" of the Republi-
can party in this state. One of the let-
ters read during the forenoon session
contained a postscript which read:
"All right I'll change the whole
board of tax assessors."

The letters were brought to Syra-
cuse by the former senator's son and
turned over to counsel for Mr.
Barnes.

Although the colonel could not
say whether he had ever made it
known to the public that he was con-
ferring with Mr. Platt over appoint-
ments, he denied emphatically that
such conferences constituted "invis-
ible government."

"My actions," the witness asserted
"were as visible as they could be."
"Under the conditions it seems to
me that while it will do damage to
re-nominate Hughes, it will do more
damage not to re-nominate him and
that this damage will extend outside
of the state. While, therefore, I
want most emphatically to disclaim
any intention of seeming to dictate
the nomination, but I think I ought
to tell you that my judgment is that
the convention ought to re-nominate
him. I am sure that the delegates
from this district will be for him.
Bennett, Sherman and Dady insist
there is no alternative to his re-nom-
ination. Hitchcock says that not to
re-nominate him would be a harm to
the canvass outside of New York as
well as in his judgment, in New
York. Even Smith finally announced
that he was inclined to take the
same view. I may add that every
one present agreed to keep absolutely
quiet in this matter and to con-
sult with you, among others, before
any kind of conclusion was announce-
d but from the papers I should
judge some one had talked. It was
not I, for no newspaper man commu-
nicated with me directly or indirect-
ly and I was as much surprised as
any one when I saw the statements
in the papers."

A copy of the above letter was sent
to Mr. Parsons.

On August 21, 1908, Col. Roosevelt
wrote to Mr. Barnes from Washing-
ton:

"Most emphatically whatever my
friends do up in Albany, I shall stand
by them. I have given them, includ-
ing you, my best judgment. It is not
a judgment based on newspapers: it
is a judgment based on what Con-
gressman Bennett has found from his
personal canvass, what Sir Strauss-
burger finds on the East Side of New
York, what Broadhurst and Mike
Dady find in Brooklyn, what Cocks
finds here in my own district, what
Jim Sherman finds to be the over-
whelming sentiment right near you in

damage suit brought against Edward
N. Breitung, capitalist, of Marquette,

FLOOD WATER POURS
OVER THE NEW DAM.

Fort Worth, Texas, April 26.—
Two feet of flood water today poured
over Fort Worth's new million dol-
lar dam and police were busy getting
residents out of the lowlands. It
was believed the dam, which im-
pounds a reservoir for ten miles
back safe. Launches were used
today to rescue a number of camp-
ing parties marooned on islands in
the reservoir.

Greatest Battle Of Present War Is Now Raging Near Ypres

(ASSOCIATED PRESS TELEGRAM)
London, April 26.—What some
military critics are inclined to pro-
nounce the "greatest battle of the
war," is now under way on the Yser
canal.

Official reports are both meagre
and contradictory, but it generally is
believed in London that the Germans
are making desperate efforts to
break through to the French channel
ports. Some such of the Ger-
man offensive has been antici-
pated by the war experts but this
movement forestalling the long-
predicted allied offensive comes as a
distinct shock to the general public.

It is impossible as yet to get a
clear idea of the extent of the Ger-
man movement, but some special dis-
patches to London papers describe it
as so important that the Germans
are even credited with bringing field
Marshal von Hindenburg from the
East to conduct the operations and
Emperor William himself is reported
as proceeding to the Yser front.

In the eastern arena of hostilities,
the Carpathians compete with the
Yser for interest. The gateway into
Hungary formed by the Tzsook pass
again is becoming the scene of sa-
guinary fighting with neither side
making any great gains. Warsaw as
a German objective is dimmed by
the importance of keeping the Rus-
sians out of Hungary and the Ger-
mans are reported as withdrawing
their lines from in front of the Pol-
ish capital for new concentrations
along the fronts of Cracow and in
the Carpathians.

The fair-weather between England
and Holland is still being kept clear
of commercial shipping with the re-
sult that the steamer Noordam, bear-
ing the women delegates to the peace
conference, is marooned in the
Downs. Some of the delegates have
sent an appeal to Ambassador Page.
Operations to the North Sea are
still a deep mystery, but speculation

Cables Broke When Boys Started the Bridge to Swaying
And Pedestrians Were Precipitated Into The
Waters of the North Fork

SEVERAL BADLY HURT AND OTHERS SEVERELY BRUISED

Ambulances Called to Scene Take Injured to the City
Hospital—One Young Man Pinioned Under Water
By Heavy Timber and Young Girls Have Narrow Es-
capes From Drowning—Bridge Was Used Chiefly By
Employees of the American Bottle Plant.

Ed West, 22 years old, suffered a
fractured leg, Miss Thelma Leiks,
20, has a bad cut on the right jaw,
and four others received bruises,
while all six narrowly escaped drown-
ing, about 4 o'clock Sunday after-
noon when the swinging bridge east
of the plant of the American Bottle
company, collapsed, throwing them
into the water. Ethel Looker of
South Fourth street, Lulu Bucking-
ham of Seventh street, Bertha Wil-
son of Sixth street, and Florence
Staiger, of Fifth and Wilson street,
were the others who were thrown
into the water.

The accident was the result of the
folly of two young men who have
not been identified. To frighten the
five girls who were crossing the
bridge, the young men started it
swinging and continued until the
cable supporting the north side of
the structure broke, sliding the
young people into the water 15 feet
below.

Mr. West, who was most seriously
hurt, was caught under the timbers
of the bridge and his leg was broken
and badly bruised. He was hur-
ried to the City hospital where Dr.
U. K. Essington attended him. At
the hospital this afternoon his con-
dition was said to be good.

Miss Leiks, the only one of the
girls requiring the attention of a
physician, struck a stone in the
stream, cutting an ugly gash in her
right cheek. She was taken to the
office of Dr. J. T. Harbottle, where
the wound was closed with several
stitches and later she was removed
to her home at Fifth and Wilson
streets.

Florence Staiger owes her life to
the prompt action of a young man
she does not know. She was thrown
into water over her head and being

unable to swim, she believes she
would have drowned had the young
man not come to her rescue and
helped her to the river bank.

That more persons were not
thrown into the water is regarded as
remarkable, because the bridge was
throne most of the afternoon, hun-
dreds having used it as a means of
crossing the stream, the day being
such that many Newark people took
advantage of the fine weather to get
out of doors.

The party of girls caught in the
collapse of the structure were on
their way to pick wild flowers which
grow in abundance on the east side
of the stream near the bridge. They
were nearly half way across the
structure when two youths started
the bridge swinging violently. Find-
ing that it frightened the girls, the
swinging was continued, until it
seemed that the floor was at times
in a perpendicular position, accord-
ing to the description of one of the
girls.

Suddenly the cable parted and four
of the girls were plunged into the
river. The fifth girl, Miss Looker,
was caught on a projection and hung
suspended by her clothing, until she
was rescued by a young man who
made a perilous trip along the bridge
which still hung from one cable.

West was caught under the tim-
bers of one end of the bridge and
was pinioned under the water. He
narrowly escaped being drowned be-
fore he was rescued by those on the
east bank of the stream.

When it was seen that some of
those who were thrown from the
structure must have been injured, a
call was sent for the ambulances of
Crisis Bros., L. N. Bradley and T. A.
Bazler. Bazler's ambulance was on
another call and did not respond.
Crisis Bros' ambulance hurried West
to the hospital, while the Bradley
ambulance took Miss Leiks to Dr.
Harbottle's office.

Police headquarters was notified
of the accident by the Advocate with-
in a few minutes after the accident
occurred and Police Chief Sheridan
visited the scene and started an in-
vestigation of the causes.

This bridge was constructed several
years ago for the convenience of
employees of the American Bottle
company who reside east of the river.
Practically since its construc-
tion it has been the source of annoy-
ance to the police department be-
cause of the practice of young men
who seldom missed an opportunity to
annoy women and young girls who
used it, by swinging the bridge as
they crossed. Several efforts have
been made to break up the practice
without success.

Until it is repaired, glass factory
employees and others will be greatly
inconvenienced by being compelled
to use the Indiana street bridge,
which is nearly a half mile away.

NEW WITNESSES TO TESTIFY IN BAILEY TRIAL

(ASSOCIATED PRESS TELEGRAM)
New York, April 26.—It was re-
ported today that five new witnesses
a woman and four men would aid
the state when Mrs. Florence C. Car-
man is placed on trial again next
Monday at Mincola on the charge of
murdering Mrs. Louise D. Bailey at
Freeport, last June.

The new witnesses, it was said,
were obtained through the attorney
of Wm. D. Bailey, husband of the
victim, by following up several of
numerous letters addressed to Mr.
Bailey in which were contained of-
fers to give information for a con-
sideration. Detectives following the
clues thus furnished are said to
have found witnesses whose stories
are regarded as sensational.

GIRLS OF SHEPARDSON GIVE DANCE

Held in Doane Gymnasium and Males Were Not Allowed—News of Granville and Vicinity.

(Special to The Advocate.)
Granville, April 26.—The annual dance of the girls of Shepardson college was held in Doane gymnasium Saturday evening with not a man in evidence. By means of banked palms festoons of blossoms, and a pool in the center of the floor fringed with daisies and centered with an immense palm, the familiar "gym" was transformed into a festive ball room. An imposing list of patronesses imparted an air of dignity, and the charming gowns of the young ladies were a delight to the eyes of the few spectators. "Enoch's orchestra" furnished the music for the eighteen numbers on the program, and the dances were all pretty and graceful, with no suggestion of any objectionable feature. The game as practiced by the college girls seems as healthful and innocent as the gymnasium exercises themselves.

The tennis match between Denison and Kenyon which was played on Saturday afternoon on the Beta court, proved to be most interesting to the large number of spectators present, and especially gratifying to the Denison people. Charles Willis acted as referee and the score as announced was as follows: Moore, (Denison) 4-2; Shaffer, (Kenyon) 6-6; Scott, (D.) 6-6; Albright, (K.) 1-3; Scott, Moore, (D.) 6-6; Shaffer, Albright 3-2.

The Denison base ball team played Akron University at Akron Saturday and suffered a 12-3 defeat. Heavy batting on the Akron side was a feature of the game, but Coach Livingston insists he has a splendid team and that the Denison pitchers will soon be in fine form.

A large congregation at the Baptist church yesterday morning greeted Mrs. W. A. Montgomery of Rochester, N. Y., president of the Woman's American Baptist Foreign Mission society, who gave an interesting and convincing talk on Missions.

All the organ numbers used by Mr. Eschman at both services at the Baptist church yesterday were taken from a cycle written by Carl Reincke, entitled: "From the Cradle to the Grave." The following numbers were used: Morning prelude, "In Church," offertory, "A Child's Dream," postlude, "Out into the Wide World." Evening, prelude, "Setting Sun"; offertory, "Consolation"; postlude, "Upward to the Stars." The hymn after the evening sermon was omitted and the congregation was asked to remain until after the postlude was played. The evening of the service was a duet, sung in a most finished and effective manner by Miss Laura Lowe and Mr. Kenneth Ullman. The evening's sermon was preached by the pastor, Rev. Willard Brelsford on "The Predictive Element in Prophecy."

Miss Lily Bell Sefton spoke at the Intermediate B. Y. P. U. yesterday afternoon on "Onedia Institute, and the Work of Rev. J. A. Burnes." Miss Sefton, who spent a part of last summer at the institute, is able to give a first hand account of what has been and is being accomplished by this wonderful man for the mountaineers of Kentucky.

IN SUCH PAIN WOMAN CRIED

Suffered Everything Until Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Florence, So. Dakota.—"I used to be very sick every month with bearing down pains and backache, and had headache a good deal of the time and very little appetite. The pains were so bad that I used to sit right down on the floor and cry, because it hurt me so and I could not do any work at those times. An old woman advised me to try Lydia E. Pinkham's Vegetable Compound and I got a bottle. I felt better the next month so I took three more bottles of it and got well so I could work all the time. I hope every woman who suffers like I did will try Lydia E. Pinkham's Vegetable Compound."—Mrs. P. W. JANSSEN, Box 8, Allyn, Wash.

Why will women continue to suffer day in and day out or drag out a sickly, half-hearted existence, missing three-fourths of the joy of living, when they can find health in Lydia E. Pinkham's Vegetable Compound?

For thirty years it has been the standard remedy for female ills, and has restored the health of thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, tumors, irregularities, etc.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Young Society Matron Lays Down Rules

In discussing the approaching social season, a young matron says that the success of every event, whether in home, church or club, depends upon the foresight of the women months before.

The brilliancy, charm and success of a party is dependent upon the physical condition of the hostess. She cannot be entertaining witty or clever, if she is loaded down with all the complaints a woman is heir to; and very few are free from the functional troubles which bring with them dizziness, backache, sick headache, sleeplessness and intense nervousness.

Thousands upon thousands of mothers, wives and daughters in every section of this great country, who have regained health, vigor and cheerful disposition after months of misery and even despair are the ones who truly appreciate the marvelous restorative power of Dr. Pierce's Favorite Prescription.

Every woman who has reason to believe that backache, unnatural pains, low spirits, sleepless nights, irregularities or a catarrhal condition is caused by a derangement of the womanly functions, owes it to herself and dear ones to speedily overcome the trouble before a general breakdown causes permanent prostration.

Dr. Pierce's Favorite Prescription is a remedy that any ailing woman can safely take because it is prepared with pure glycerine from roots and herbs, containing tonic properties of the most pronounced character and without alcohol.

Get Dr. Pierce's Favorite Prescription today, either in liquid or tablet form, at any dealer in medicines, if you want to better your physical condition surely and speedily. Every ingredient in Dr. Pierce's Favorite Prescription is printed along with the directions.

Every ailing woman should write today for confidential advice to a specialist who has had years of experience in treating diseases peculiar to women. His advice is given without charge, and writing places you under no obligation whatever. Simply address Dr. Pierce, Invalids' Hotel, Buffalo, N. LARGE CROWD WAS AT LAKE; FISHING GOOD

Fishing Sunday at Buckeye Lake was enjoyed by close to two thousand enthusiasts, according to reports coming in from the lake. Parties of two, three and four, left Newark as early as 6 o'clock Sunday morning and by 10 o'clock, practically all the fishermen were busy angling for the elusive members of the finny tribe.

At 7 o'clock it was impossible to procure a boat of any description at the lake for those that were not arranged for the night before, were taken by the early comers. Some of the boats carried as many as five people and it is estimated that there are close to a thousand boats at the lake.

Not everyone was lucky enough to strike a catch but those that did were amply repaid in the pleasure they got out of the day's sport. Some very good catches of Lake Eries, sun fish and catfish, were made, but, according to reports, bass did not bite except in rare instances.

PET DOG "WHOOOPS" WITH CHILDREN OF THE NEIGHBORHOOD

Whooping cough may come and whooping cough may go, but the oddities of the malady stay with us forever. Pet, a dog who lived in the neighborhood in the vicinity of Sixth and Church streets by C. J. Trees when he moved, now has the whooping cough according to Hon. W. D. Fulton.

To hear the dog cough is to recognize immediately the symptoms of this ravaging epidemic. It isn't the dog's bark, at all, for the poor beast has every appearance of a whooping cough victim.

"It isn't any joke," declared Mr. Fulton, "it is the gospel truth. All the children in the neighborhood had whooping cough, and that is where Pet caught it. He coughs just like a child, and looks just as if he didn't care whether or not the world moved on. I can vouch for his having the whooping cough for I have heard him cough, and besides, every one in the neighborhood says that he has the whoop."

A young woman in the journalism class at K. U. was asked how she would go about it to get the news of a fire in a distant part of town, late at night, after the street cars had stopped running. "Well," she replied, "I suppose I'd have to call a taxi and go to the thing, but personally I don't think any editor who is a gentleman would make a girl go to a fire at such a time in the night."—Kansas City Star.

COMMISSION TO PROSECUTE TAX DODGERS

(ASSOCIATED PRESS TELEGRAM.)
Columbus, April 26.—A special campaign to detect tax dodgers, thousands of whom have been found, will be prosecuted vigorously beginning immediately, according to announcement today by the state tax commission. The three commissioners have taken personal charge of the movement and re-appraisements of personal property will be ordered in a number of communities, it was said.

Investigations made by Commissioner James Boyle in the southern part of the state show that "there are a number of townships which practically do not return one dollar on household effects, pianos, jewelry, watches, etc.," says the tax commission's announcement. The neglect to return personal property for taxation is more widespread in the country than in urban districts, Mr. Boyle's investigations shows.

Citizens understood that all household goods instead of only \$100 worth were exempt from taxation. They failed to return deposits in building and loan associations. One township returns did not show existence of even one watch.

In one county \$500,000 had been invested in non-taxable bonds recently, school teachers acting as agents for the bonds. In one town only one family made any personal property returns. Scores of pianos were assessed at \$20 and a majority of watches at between \$1 and \$5.

The tax commission announced that many district tax assessors already had ordered re-appraisals of personal property in counties under their jurisdiction and declared the commission will have to be given the reason if this is not done in other communities. Wealthy districts are said to show worse tax dodging records than poor agricultural sections.

"While a majority of the tax returns being received are fairly satisfactory many of them show decreases compared with last year's returns," says the statement of the tax commission. "The decrease referred to apply only to personal property returns. They range from 3 to 22 1-3 percent in different townships."

For the sake of personal investigation Commissioner McGiffert has been assigned to northern Ohio, Commissioner Peckinpaugh to central Ohio and Commissioner Boyle to the southern part of the state. The commission admits "that in many townships the decrease is primarily owing to the fact that the value of livestock has declined materially and there has been a falling off in the value of farm products generally."

ANOTHER CHECK TURNS UP FROM CLEVER GRAFTER

Another one of the famous "Graves-Manning" checks, by which a clever swindler is raking in money at the rate of about \$4000 per year, through the southern states, turned up today when Mayor Bigbee received a letter from E. H. Walker, owner of a general store at Clinchport, Va., asking for information about the company. "R. B. Clayton" got \$36.75 from Mr. Walker on a check purporting to have been issued by the Graves-Manning Manufacturing Co., of Newark, O., on the Commercial Bank and Trust company. It was returned protested and Mr. Walker paid an additional protest fee of \$1.75, making his total loss \$38.50.

Mr. Walker in his letter said that "Clayton" represented himself to be a traveling salesman, exhibiting samples of glass and queensware. Mr. Walker purchased a bill of goods, which "Clayton" said were manufactured in Newark. Mayor Bigbee informed Walker that the bank, and the firm were fictitious and that the "salesman" was a fraud.

The first of these checks appeared in Newark last August and local bankers claim that more than 100 of them have been received here, for amounts varying from \$9 to \$40.

NINETY-FOUR IN THE SHADE AT COLUMBUS TODAY
Columbus, April 26.—Ninety-four degrees was the street level temperature recorded by the kiosk in the Capitol grounds here at one o'clock today. The "mild" states weather bureau recorded 57 degrees at the top of a twelve-story building.

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove it

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work. People afflicted with bad breath and quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system.

They do what which dangerous calomel does without any of the bad after effects. All the benefits of nuxi, sickening, griping cathartics are derived from Dr. Edwards' Olive Tablets without griping, pain or disagreeable after effects of any kind. Dr. P. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with liver and liver complaint with the attendant bad breath.

"Lonely" and "Lonesome."

Here's the distinction between the words lonely and lonesome, although often they are used in the same sense. "Lonely" means to be deprived of human society and companionship, while "lonesome" is the dejection and sadness due from lack of society. The one is a state of being, the other a state of mind.

To be lonely is entirely physical, while lonesome is exclusively mental and may be the result of actual loneliness or may merely be an imaginary lonesomeness caused by mental depression.

The difference between the words is better illustrated in the following: A man is sitting in the library of his home, both lonely and lonesome. The telephone rings. Friends invite him to join a merry party then in progress a few miles away. In order to reach this party he must mount his horse and traverse a lonely and dangerous road. In this journey he is lonely, for the road is lonely, but he is not the least bit lonesome, for his thoughts are pleasant in anticipation of the enjoyable evening he is about to spend with gay comrades.—St. Louis Post-Dispatch.

Lincoln and the Preachers.

I talked once with an old man who heard the Lincoln and Douglas debate at Bloomington, Ill., who said, "I remember Lincoln quoted Scripture like a preacher." Browne, one of his biographers, wrote: "He made frequent use of Bible language and of illustrations drawn from Holy Writ. It is said that when he was preparing his Springfield speech of 1858 he spent hours trying to find language to express the central idea. Finally a Bible passage flashed through his mind, and he exclaimed, 'A house divided against itself cannot stand.'" (Mark III, 25.) In his second inaugural he quoted twice from Matthew and once from the Psalms. It would seem that in every crisis of his life he sought Bible inspiration and divine guidance. While he was running for congress he declared his religious attitude when pulling a small Bible from his pocket, he said to a ministerial friend, "If I read this book aright every preacher ought to be with me in this contest."—Christian Herald.

Squeaky Shoes.

The "squeak" in shoes is caused by the inside and outside soles rubbing together in walking. To overcome this disagreeable trouble make an opening at the edge of the inside of the shank of the shoe and work a screwdriver between the soles to the tips, thereby loosening the inner and outer soles. Then work in a little French chalk, soapstone or talcum powder through the opening. By bending the soles back and forth or slightly tapping the edges the powder will work itself between them. The opening can then be closed with one or two tacks, and the squeaking will be permanently stopped. Such an emergency repair is very much better than the soaking and oiling frequently resorted to and yet does no harm to the shoes provided the job is done by a competent shoe repairer.—Technical World.

Where Leaders Stand.

There is one Asiatic idea as to the right place of the commander in warfare which is altogether different from the rigid scientific Japanese principle. Sir Francis Younghusband has told us that when the British expedition to Lhasa first met the armed host of the Tibetans and a fight was provoked, with consequences disastrous to the primitive warriors, the lamas protested against the wickedness of the British attack. The Tibetans, they insisted, had never meant resistance, and for proof they pointed to the presence of the leaders with the troops. If, they said, any fighting had been intended all those in authority would of course have moved a day's march to the rear!—Manchester Guardian.

Why He Was Cut Off.

"I thought you were a friend of his?"
"I used to be."
"And now?"
"I had to give him up in self defense."
"Why?"
"To every life insurance and book agent that asked him if he had any friends who might be interested in their propositions he insisted on giving my name."—Detroit Free Press.

Easily Arranged.

"How did you come to get married?" asked a man of a very homely friend.
"Well, you see," he replied, "after I'd vainly tried to win several girls that I wanted I finally turned my attention to one that wanted me, and then it didn't take long to arrange matters."—London Strand Magazine.

Thought He Was Smart.

"Oh, dear!" groaned the young wife. "I don't know what to use to raise my bread; I've tried everything."
"A derrick and a couple of jack-screws ought to do it," thought her husband, but he didn't say it aloud.—Boston Transcript.

No Fool.

"He's hot headed, but he's no fool."
"What do you mean?"
"He knows enough not to lose his temper in the presence of a man he can't lick."—Detroit Free Press.

Bamboo Lighthouse.

A lighthouse constructed of bamboo, which is in use in Japan, is said to have great power of resisting salt water and does not rot like ordinary wood.

LET SENTANEL LAXATIVES DO YOUR SPRING CLEANING

Wonderful Little Performers, 10c

Like your house, your system needs a little special attention the spring. Winter has left your bowels clogged, your liver lazy, your blood impure, you need a good inside housecleaning. Sentanel Laxatives will do the job. And do it without pain or griping. They work more effectively than the ordinary cathartics, for they not only clean out the nasty, noxious poisons, and put your liver back on the job, but they tune up the whole system so that you feel simply great!

There's not a bit of mercury (calomel) in Sentanel Laxatives. They are made entirely from old-fashioned, time-tested herbs and plants that are used by physicians daily. Have your druggist send you a box. 10 doses 10c. Get effectively than the ordinary cathartics, for they not only clean out the nasty, noxious poisons, and put your liver back on the job, but they tune up the whole system so that you feel simply great!

MURRAY IS PILOT FOR LIMA CLUB

OWNER FARRELL SIGNS NEW-ARK BALL PLAYER TO DEVELOP A PENNANT WINNER.

Michigan State League President Has Many Nice Things to Say of Murray's Ability.

President Vincent Farrell of the Lima club, member of the Buckeye league, has just signed a player-manager for the Lima club. The man who will pilot the team to success this year is Sandy Murray, of Newark, who last season managed the Muskegon baseball club of the Michigan league. The Muskegon club won the championship of this league which shows that Murray is right up to the minute as a minor league manager, he is also a very good infielder and has had four years experience as a player in the State league, and one year in the American association. Murray is an old hand therefore at the game and will know how to teach new recruits in case he discovers some promising young talent the fine points of the game.

Besides having played with several Newark clubs, Murray managed the local club in its last season in organized baseball, having charge of the club of which F. G. Warden was owner.

Mr. Farrell has known of Murray's success as a ball player and manager for several years in a professional way and he feels highly elated to think that he has been able to secure such an experienced handler of baseball teams.

President E. W. Dickerson of the Michigan State league in writing to Mr. Farrell recently said that Murray was without exception the greatest baseball manager of Michigan State league last season.

He developing from what at first seemed to be a mediocre bunch of players early in the season, to a pennant winner, after making one of the most remarkable finishes ever known in any league by winning 19 games out of the last 23 games played. Further than this Murray's team was practically the lowest salaried team in that league, which proves that the captain manager is a big factor in the success of a ball team. Mr. Dickerson stated in his letter that Murray was worth his weight in gold as a minor team manager. He says further that he has known Murray during the past ten years and has always found him a hard working and conscientious willing player at all times, as well as an efficient leader and gentleman in every respect.

President Farrell has notified Manager Murray to report in Lima on May 1, and instructed him to sign the best team possible immediately.

Denison Wins Tennis Match From Kenyon

Granville, April 26. — Showing greater stamina at the finish, Denison defeated Kenyon net men here Saturday afternoon. Denison took a match of singles and the doubles, while Kenyon, due to the excellent playing of Schaeffer, took the first match of singles.

Mr. Talkalot—"All men are born equal, Uncle Eph, but the trouble is, they don't stay that way." Uncle Eph—"Dat's right, suh; dat's right. Some of 'em soon gets to be a powerful sight equaler dan de others."

Prefers Auto Racing to Life in Trenches

PORPORATO

Though his sympathies are entirely with the allies, J. Porporato, the Spaniard entered in the next Indianapolis 500-mile race as alternate driver of the Sunbeam team, is not giving his favorites any active assistance. Five-hundred mile racing, with all its faults, has, in his opinion, certain advantages over a bullet riddled trench. He may risk his neck at the wheel of a racing car traveling 110 miles an hour, but dodging shrapnel is a little too much for him. Porporato, incidentally, is some driver, having won the 1908 Targa Bologna, hands down.

NEWNHAM IS CHOICE FOR AKRON BOSS

ANOTHER FORMER NEWARK MANAGER IS GIVEN MANAGERIAL POSITION IN BUCKEYE LEAGUE

Owner Lawson Familiar with Newnham's Record and Ability and Wasn't Slow to Grab Him.

President A. W. Lawson has signed a player manager for the Akron baseball club of the Buckeye league. The man selected for the position is Al Newnham, of Johnstown, New York, who was the choice of fifteen applicants for the job.

The selection from many standpoints, Mr. Newnham thinks, is a most excellent one, for not only has Newnham demonstrated his value as a winning manager, but he combines a great many other good qualities as well. He is a first-class ball player to begin with, and on top of that he is a sober, conscientious, hard-working, reliable and gentlemanly fellow as well.

Newnham first came into minor league prominence as an infielder when he played shortstop with the Jacksonville, Fla., club of the South Atlantic league, in the year of 1906, making a splendid record for that team in both batting and fielding. The following year, in 1907, he captained the Pottsville club of the Atlantic league, and became a great favorite with the Pottsville club of the Atlantic league, and became a favorite with the Pottsville fans by the inside work he instilled into that team, and by his brilliant playing at short field.

Newnham then came west and played with the Lima, O. club during the years of 1908, '09 and '10. The last year, 1910, he managed the Lima club, which finished second in the Ohio State league. In 1911 he was the manager of the Newark club, later transferred to Piqua, which finished fourth in the Ohio State league. Getting stronger and better with each year's experience as a minor league manager, Newnham did his greatest work as manager for the Chillicothe club of the Ohio State league, during the years of 1913 and 1914; practically winning the pennant both years. In fact, in 1913 he won the pennant for Chillicothe and in 1914 he won the first championship series, though not the

second series. The final series, through some hitch in the constitution of the league, which did not enforce it, was not played off, otherwise it is quite probable that Newnham would have carried off the honors of the last season series as well.

This record of Newnham proves that he is getting better and better each year, and as he is still a young man, there is no doubt that he will become even a greater manager during the next few years, and that he should be well able to look after the Akron club's interest to good advantage during the year of 1915.

Mr. Lawson has seen Newnham work before, as Newnham captained the Pottsville club of the Atlantic league, which Mr. Lawson was the founder of in 1907.

In picking his manager, Mr. Lawson took into consideration the necessity of a man who could qualify in every department; managing—playing—sobriety—resourcefulness—experience—and the success already achieved. He thinks Newnham fills the bill in all these particulars.

FINDLAY STARTS ACTUAL WORK ON HER NEW GROUNDS

Work was started this morning on the improvements planned on Findlay's baseball park. A large number of changes and alterations will be required before the stands will be large enough to accommodate the crowds which are expected. Findlay gives promise of record attendance this year, there having been no professional baseball there in the last 10 or 12 years. The club is receiving dozens of inquiries daily from baseball players seeking positions. No playing manager has yet been selected. Dean M. Richmond, now athletic coach at Findlay high school may land a pitcher's job with the team. He is a former Ohio State star and is said to have considerable latent ability. The club is still trying to secure J. H. Van Paterson as playing manager.

Lawson Says 800 Ball Players To Hunt Jobs Soon

President Lawson of the Buckeye league advises against hasty action on the part of playing managers in the other cities of the new circuit. He says that within the next few weeks there will be 800 baseball players hunting for jobs. They are being turned adrift daily. He declares and those who are now demanding \$200 or \$300 per month, can be signed for \$100 in a few weeks.

The school of experience gives mighty few holidays.

Great Pitching Star Still Shines.

Walter Johnson, the great pitcher of the Washington club, who was reclaimed from the St. Louis club of the Federal league, is still the star he has been for seasons past if his showing at the beginning of the baseball year is an indication. He won in his first 10 games of the season in such a manner that Clark Griffith, manager of the Senators, was

Season Ticket for Fan Who Gives Best Name for Newark Ball Club

Manager Wreath wants a name for his Newark team in the Buckeye league. The Advocate is going to ask the fans of the city to make the selection. Just pick what you think would make the best nick name for the new club, and send it in a letter to the sporting editor of the Advocate. The winner will be given a season ticket to all games in Newark by the Advocate.

The Cleveland Americans are known as the Indians, the New York Nationals as the Giants, the Boston

Nationals as the Braves, etc. In the past, the Newark team has been called the Molders and while this name is not barred, a new nickname is desired, so the Buckeye league club can start with a clean slate. The big contest opens today, and will continue until May 12. At that time all the names submitted will be turned over to a committee to be selected later. Don't wait. Get busy and send the Sporting Editor of the Advocate a letter at once. Use this coupon.

Town Promotion.

"Let us say that Smith," said the Board of Trade man quoted in the previous editorial, "is one of your townspeople. He is a buoyant fellow, full of appreciation of the present advantages of your town, and its possibilities for growth. He goes off some day to spend a week-end with his wife's relations, and incidentally gets to talking about your town. He tells what a good place it is to live and do business in."

"A few months after it appears that some young man in the town visited by Smith, is contemplating the starting of a new industry. He has a little capital, but finds his own home people indifferent to him. The words of your friend Smith had been heard by him. It strikes him that your place might be an excellent town to get a start in. He writes to Smith, who invites the young man to his home, and later introduces him to the business men about town. He gets the glad hand, and inside a few months your town has a new industry."

"I believe," said the Board of Trade man, "that in the majority of cases, new industries locate in somewhat that way. Some are founded in response to circulars and appeals sent out by Boards of Trade. The majority come because a town has acquired a reputation for hustling, and for business and residence advantages."

Of course Smith might go visiting for a hundred week-ends, talk his relatives blind about the advantages of his town, and never interest a soul to think of moving there. Yet the hundred and first time he might strike some one who was thinking of entering some new venture, and might bring something back to his home community."

"If 100 men in any town," concluded the speaker, "would make it their practice on all possible occasions to say a word tactfully—never forcing the subject—to people from other towns as to the advantages of their home place, in time this would create quite a widespread reputation. Some of the people that heard about the town would be interested 'to make further inquiries. A few of them would be likely to move in and bring some good business with them."

A town grows and is built up by its reputation, was the conclusion. To secure that reputation, the citizens of a town must do all they can to spread information about its advantages. From a thousand chance seeds of information and helpfulness, a few will bear fruit. It may seem luck and chance, but it is really the result of a community habit of push and expansion and search for new opportunity.

Right now the people of Newark are asked to "polish up" Newark. To clean house, to remove debris from alleys, cellars and back yards, to clean-up and paint-up. Concerted action along this line will be real town promotion. It will make visitors say a good word for Newark. It will make us think more of our home town. It will help to eradicate disease and will lessen the fire peril.

April 26 In History.

1521—Ferdinand Magellan, Portuguese navigator, killed; born 1470.
1865—General Joseph E. Johnston surrendered to General W. T. Sherman his army of 31,000. John Wilkes Booth, assassin of Lincoln, killed. Booth escaped from Washington and crossed the Potomac to Fort Royal, where Boston Corbett, a soldier, shot him dead.
1910—Bjornstjerne Bjornson, famous Norwegian author, died; born 1832.

Unconfirmed News.

If newspapers printed only the things that some public men think they should print, they would have little else but real estate transfers, marriages and deaths. At the same time, whatever the convictions of the Associated Press men who heard President Wilson speak at New York the other night, they all seemed to applaud his plea for caution in printing unconfirmed news.

At the height of the yellow journalism movement, a host of papers never made efforts to distinguish between rumor and fact. If there was a dispatch that the Japs had landed troops on the Philippines, they chucked it in and denied it next day in small type. More often they did not bother to insert any denial—unless it had a string in the form of a possible libel suit.

The war news is full of fakes. Some of these are feelers, sent out by some government anxious to try out a certain idea on public sentiment. The confusion of war sets afloat daily a thousand rumors that are merely someone's surmise.

It often seems as if the big metropolitan papers fail to estimate high enough the intelligence of the public. The hustling dwellers in New York, Chicago and San Francisco may be too busy to read anything but headlines. But there are millions of others who read intelligently and form opinions. When the editor puts a headline on a story showing that he accepts it as fact, his audience may read it through and pronounce it a fake. A newspaper that does that may sell on street cars and railroad trains. But it will never get any hold on homes where thoughtful people read, estimate, and weigh.

Could some newspaper men act on the suggestions made by President Wilson to the Associated Press, not merely would this country be in better position to maintain advantageous neutrality, but some newspapers would command wider respect.

On May 3, Pittsburg, Pa., will start a thirteen days' campaign to eradicate dirt, fire dangers, disease and dinginess. The slogan is "Build up, Dress up, Scour up, Polish up, Paint up." If smoky Pittsburg can be made spick and span, there is no reason why Newark should be dingy. Newark's clean-up day comes May 4.

The Harry Thaw case which has not been before the public for a few days will again get the spotlight May 17, when the jury trial to test Thaw's sanity is to start.

Disease and fire have a common cause—DIRT and CARELESSNESS. Newark's clean-up day comes Tuesday, May 4. Get ready now.

Future Tariff Revision.

(Columbus Sunday Dispatch.)
James J. Hill, the railroad magnate, says that he knows of politicians who want to make a revision of the tariff upward an issue in the next presidential campaign. Their idea is, Mr. Hill says, that the people want the work of the Democratic tariff legislation undone, and he warns them that they are mistaken. "That the country can live and thrive under the existing tariff," he adds, "is clear to all. No doubt, he is right, but the fact would be clearer, if the European war had not come to upset the plans of the tariff-makers of the last Congress."

Above all things, it is not true that the people want another tariff revision of the old sort—the sort of which it is to be hoped the Democratic revision was the last. The prevailing desire is that Congress in this matter shall put itself under some restraint, committing the work that it has been forced to do in a hurry and under adverse conditions, to a commission that can deal with the problems deliberately, sanely and scientifically. Congress, of course, will have to make the law, but in legis-

lating it can and should take the advice, not of interested manufacturers or of political associates whose only concern is votes, but of experts who have studied the question dispassionately and impartially, and have regard, not to the profits of a few, but to the welfare of the many. Any further tariff revision should be made in the new way—a little at a time as circumstances warrant and careful inquiry by experts indicates. That is what the people want, and no party will gain anything by advocating another method.

One Scourge Going.

(Pittsburg Dispatch.)

Reports for 57 of the large cities, compiled by the Journal of the American Medical Association, show most encouraging progress in the elimination of the typhoid fever scourge. These communities, embracing nearly one-fourth of the population of the country, had, according to the 1914 figures, an average death rate from that disease of only a little over 1.0 per 100,000. The significance of this may be gauged by the fact that between 1908 and 1910 Pittsburg's rate, then the highest of the great cities, was 65. Happily Pittsburg occupies no such evil prominence today. The death rate from typhoid fever last year was but 13.8, a decrease from the previous year of 4.2 or 3.5 less than the average in 1911-1914.

Experience the country over has shown that the purification of the water supply has been the most influential factor in reducing the typhoid rate. Next to that has been care in the milk supply. With these two factors guarded against isolated cases may be traced to local causes and the causes removed. The conquest of typhoid fever in the large cities has been the most remarkable and most convincing demonstration of the value of disease prevention in recent years. In the past four years there has been a reduction of 20,000 cases annually among a population of 23,000,000.

Some of us youngsters went swimmin' yesterday. We mean Saturday and say, the water was just fine.

A fellow can have a lot of fun making garden, that is if the plot isn't too big and if his son will only keep the weeds out.

Probably a Ford.

"Where's that new car?" remarked one customer of another at Williams & Eilber's shop Saturday night. "Oh, that's still in my head," was the answer of the man who meant to say that he was still thinking about it. "Must be a very small machine" was the parting shot.

Don't believe everything you hear. Some people would have a hard time telling the truth if they tried.

He Stoops to Conquer.

A mechanic in a southern town has his name up over the door, which is all right. It is still more right when one stops to read it for it says: "Stoops, the Blacksmith."

While the average man would like to be ahead, he is pretty well satisfied if he catches up.

The difference between college graduates is that some have diplomas and others an education.

Another reason a married woman dreads death is that she doesn't want her children reared by her husband's people.

The women say Mrs. Glib-Childers, who applied for a divorce three

The things a man forgets are those he wishes he could remember.

Give a man his "rathers" and he will ask for money. Everyone seems to realize the futility of the search for happiness.

A good many of you will remember that there was a time when the old-fashioned velocipeds was considered a menace to pedestrians.

When a man tries to be as affectionate towards his wife as he was during the days of their courtship, she says to herself, "I wonder what is the matter with that old fool?"

Before giving a man credit for refusing to sell himself, find out whether he had anything that anybody wanted to buy.

There are two reasons why you should not engage in joint debate. The first is that you can't win it. The second is that if you did win it the prize would be negligible.

Spirit of the Press

Sometimes Costly.

Italy's Queen is in danger of losing one of her arms, as the result of an old wound. The incident is unknown in Italy, but the Queen writes of her trouble to an "intimate friend" in Los Angeles, and the intimate friend immediately peddled it to the public. Intimate friendships are sometimes rather costly.—Rochester Herald.

Have a Guess.

The Chicago Tribune, ex-Progressive, bears that the Colonel will aid the G. O. P. if the candidate is the right man. Has there ever been any doubt of that or of his idea of the right man?—Pittsburg Dispatch.

War Boosts Baboon Prices.

We learn from London that in consequence of the war baboons are very high, alligators are scarce and polar bears are firm. In fact, these animals command twice the prices bid in April, 1914. It seems that in course of Germany's commercial expansion it got control of the "wild stock" markets of the world. Hamburg became the centre of this trade which is diligently prosecuted by German collectors. Now Hamburg is isolated and doubtless finds itself with a big stock of baboons, polar bears, alligators, etc., on its hands which it cannot move. With the coming of peace Hamburg may be expected to realize on its holdings, and a sharp decline in baboons is probable. Until the war is over British families desirous of pet baboons or polar bears will have to pay fancy prices or go without. American lovers of the canary birds are in a similar predicament, for Germany handles in normal times quantities of the yellow songsters, and we are told that orders from the United States for \$25,000 worth are by no means uncommon.—Boston Transcript.

Leo Frank Case.

The Judge who tried Leo Frank left at his death a letter saying that when the case should reach the Governor he would urge executive clemency. There is so much of doubt regarding the justice of the conviction, even if all the proceedings were perfectly regular, that the world looks to the Governor of Georgia to prevent an execution.—Philadelphia Record.

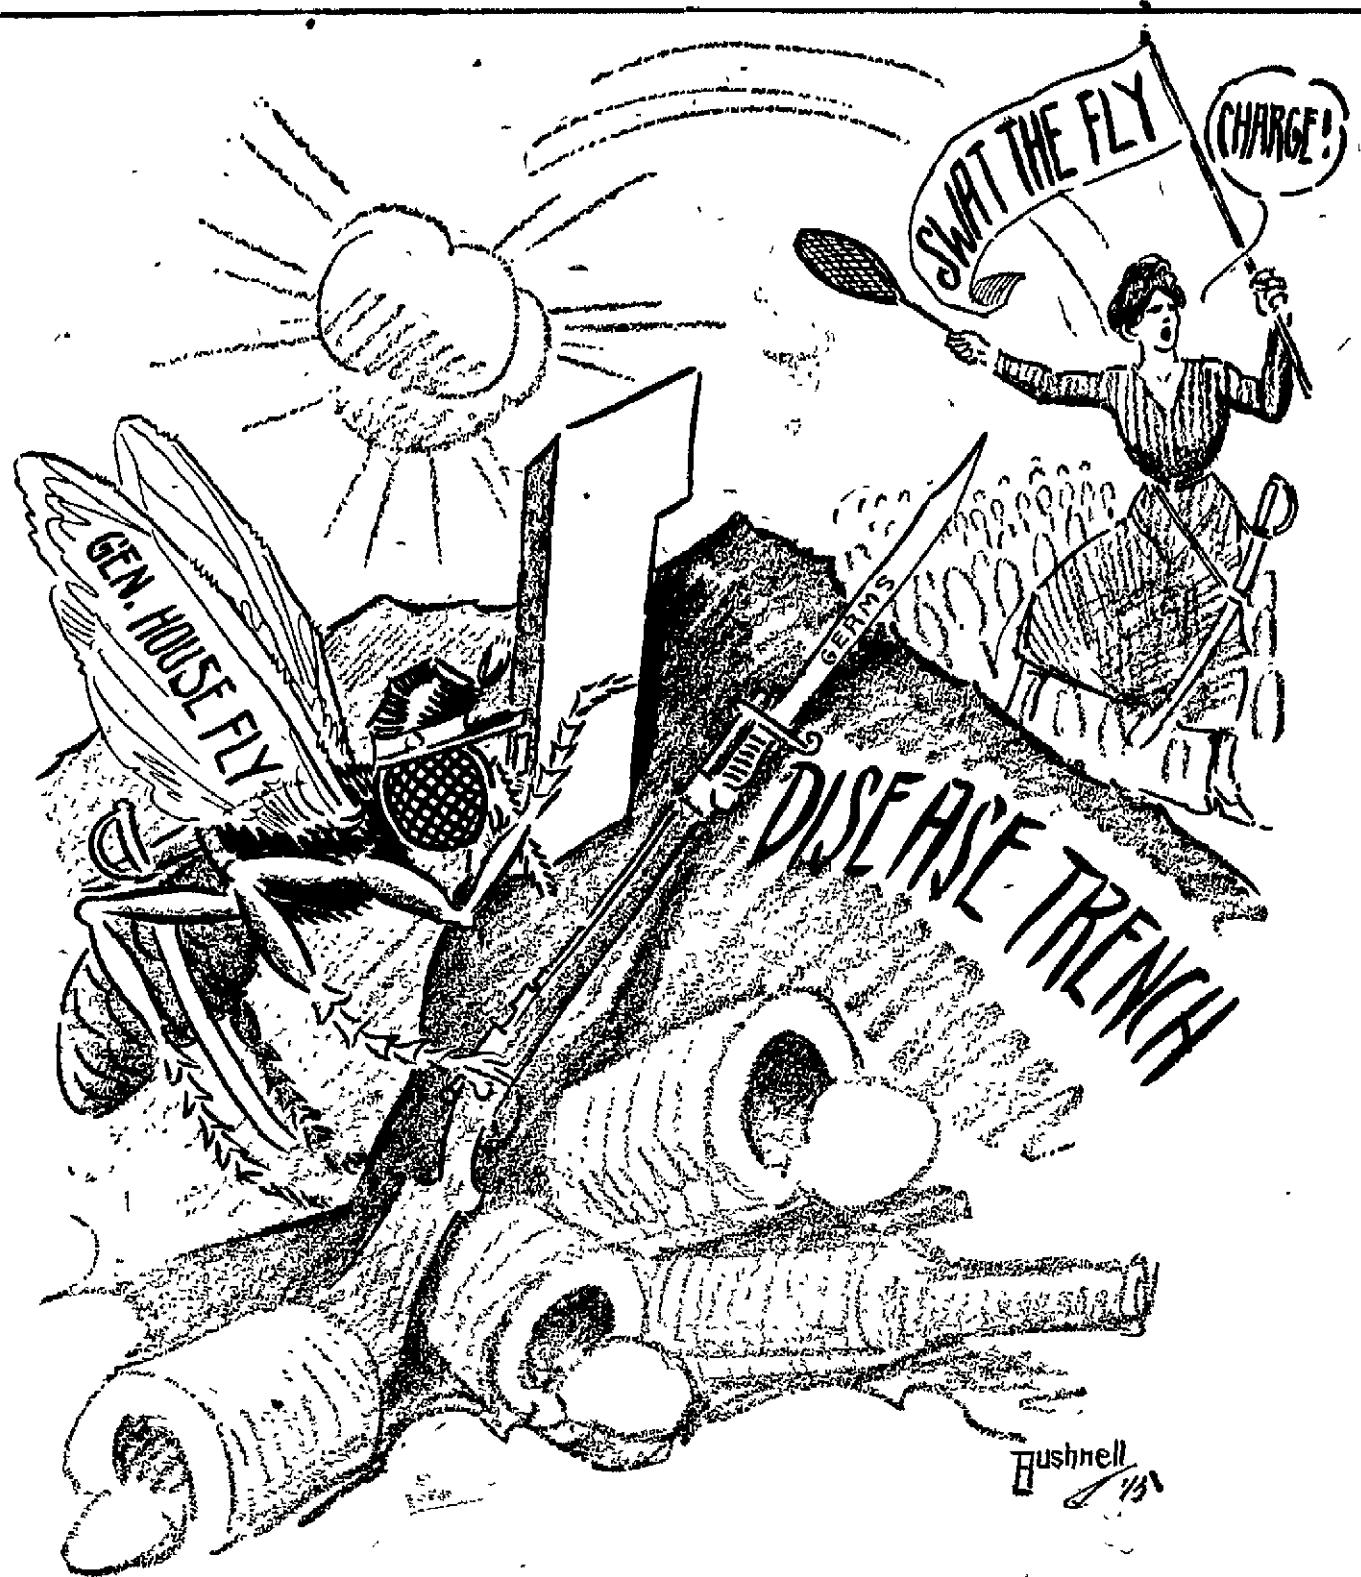

Very True.

"Swat the fly, smother the mosquito and bat the rat," is an inscription on some of the sanitary banners of the day. So, look the stable door after the horse is stolen. What should be swatted, smothered and battered is that which breeds and feeds the fly, the mosquito and the rat.—Pittsburg Dispatch.

Leo Frank Case.

Fortunately the executive power can approach this question (the Frank case) without being bound by any court's findings either of fact or law. Fortunately for the prisoner he will have before him a very persuasive piece of evidence which none of the courts could admit. This is a letter written to the pardon board by the judge who presided at the trial, just before his death, in which he expressed serious doubt as to the guilt of the defendant. It is inconceivable that any chief executive with such a document before him, will permit the man to whom it refers to hang. When the doubt as to

WOMEN MAKE LONG TRIP ON A MOTORCYCLE

Mrs. J. H. Hildabrand and daughter, Fay, of Washington, Pa., arrived in the city late Sunday, enroute for Tulsa, Okla., on a Harley-Davidson motorcycle.

Mrs. Hildabrand and daughter are enthusiastic motorcyclists and are not making the trip for a wager but simply as a means of enjoying the open. They expect to attend the motorcycle and auto races at Dodge City, Kans., and will go there over the Santa Fe trail from Wichita. From Dodge City they will go to Pueblo, Denver and Grand Junction, Colo., before ending their trip at Tulsa.

"We don't care how long it takes us," said Mrs. Hildabrand to the Advocate, "for we are out for pleasure. We have never been out in Colorado or Oklahoma and we have always been anxious to see the country. We don't care if we don't get back until Christmas."

Mrs. Hildabrand was at the shop of the American Machine Co., on South Third street when seen by the Advocate. Both she and her daughter are small but very wiry in appearance. They were dressed alike in brown khaki uniforms with short skirts, and wore brown rain coats. They have a two speed Harley-Davidson machine with side car attachment.

END OF SESSION IS POSTPONED TO NEXT WEEK

(Associated Press Telegram)
Columbus, April 26.—Prospects of ending the active legislative session this week were given up by all political observers here today and the middle or latter part of next week was the new time set in predictions for quitting work. It was said by a number of legislative leaders that it would take much more speedy work than the legislature probably can do to take recess even by Wednesday of next week.

A budget appropriation bill will not be introduced before Thursday or Friday of this week it was said in the committee room today where members with their coats laid aside and handkerchiefs in their collars were working over details of the highway department's appropriation.

The main cause for the delayed recess, however, appeared to be the liquor license decentralizing measure. It was generally conceded by leaders of both the house and senate today that this bill alone would occupy a large part of the assembly's time this week. Regardless of what kind of a bill the house passes, indications were that the senate would not agree to anything except a mere decentralizer. Final vote on the Andrews bill, providing for selection in each county by popular vote at the primaries of a license commissioner, was scheduled for tomorrow.

MID-SUMMER DAYS BEING FURNISHED BY WEATHER MAN

Old Sol burned down on Newark, Sunday, and raised the temperature, according to reports, to 57 degrees in the shade. It was not until late in the afternoon that clouds, and a light breeze, relieved the early season heat.

Parties that spent the day in the country, or at Buckley Lake, came home with their arms and faces well burnt from exposure. Owing to the fact that no authentic record is kept of the temperature, reports vary as to the degree, some declaring that the thermometer did not rise above 84 degrees. The weather again today was quite hot, the thermometer registering 57 in the shade on the government tested thermometer at the Brown grocery in East Newark.

Washing Won't Rid Head Of Dandruff

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this tonight, and by morning most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy, every single grain and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.

Sleep and Poetry.

An exchange recommends the reading of a fine, soul-felt poem before retiring for the night's rest. It tends to compose the soul and put it in harmony with the truth and goodness of things. A novel will not do that, nor a newspaper, nor anything that sets the mind in a flutter. Reading a poem—one of the good old kind that gets into the heart and has a nice time there—is like floating down a quiet stream, past the fragrance of flowers and the songs of the birds. Never had that experience, eh? How very shiftless, indeed.

Did you ever try reading "Snow-bound" on an evening when the snow was piling up the "silence deep and white"? Well, try it. Whittier will give you something for any evening. Tennyson's "Idylls" are a little more urgent, but they are as tranquillizing as a gentle arm around you. Wordsworth is great, but takes too much thought; Browning, too, and Lowell, but Longfellow not so much. But as easy as smiling is the humorous kind, like Riley. But there are hundreds of poems floating about as sweet as a bush of roses. Take them in and read them before going to bed. A good one will last a week. Like a song, they improve with age.—Columbus Journal.

Just Pleasantness.
Perhaps just pleasantness has not a very heroic sound, but the human heart that, knowing its own bitterness, can yet carry itself cheerfully is not without heroism. Indeed, if that human heart does no more than hold its tongue about its own aches and pains it has a certain moral value that the world cannot afford to lose. "Pleasantness" does not sound as well as self sacrifice or wisdom or spirituality, but it may include all these great words. And certainly just to start one's husband out to his work cheerily, to make the hobbled boy of a son feel a gentler and sweeter sentiment toward women because of his own mother's sound, sweet gaiety and strength, to help one's servants to put good humor and friendliness into their services—these things make for righteousness in the world.—Margaret Deland.

The Panama Canal.
The Panama canal was suggested for the isthmus of Panama as early as 1530 by Angel Saavedra, but for a long time all such suggestions met with determined opposition from Spain, which made it a capital offense to seek or make known any improvement on the existing route from Porto Bello to Panama. More recently Louis Napoleon, when a prisoner at Ham, spent much time considering the practicability of such a scheme. It was not, however, until the California gold rush of 1849 that any accurate knowledge of the topographical conditions was obtained, and even then thirty more years elapsed before the actual site was chosen by an international body and the work begun.

Origin of the Organ.
The date of the invention of the organ is unknown. It is said to have been during the third century previous to the Christian era, and from that period to A. D. 670 the invention has been ascribed to various parties. At the latter date organs were said to have been introduced into some of the churches of western Europe. This statement, however, is not considered trustworthy, and it is not certain they were used in church service until 755, when one was sent as a present by Copronymus, the Greek emperor, to King Pepin of France, who placed it in the Church of St. Cornelle at Compiègne. Keys were invented about the close of the eleventh century and pedals in the fourteenth.

In Milady's Boudoir

BY GWEN SEARS.

In the Spring milady's pedal extremities lightly turn to aches and pains. With the approach of warm weather you begin to pay with interest for the indiscretions of the winter months.

In the warm weather you should wash your feet twice a day. You will understand how necessary cleanliness really is when you realize that the largest blood vessels of the body are situated in the legs. Consequently the feet perspire, and this perspiration causes a vast amount of the foot discomfort from which folks suffer, including soft corns between the toes.

The odor of perspiration is an unpardonable offense, not alone because of the pain it causes you yourself, but of the discomfort to those with whom you are associated.

There is absolutely no excuse for this annoyance. To keep your feet absolutely clean and sweet requires not more than ten minutes' effort a day and the use of an inexpensive powder if your trouble is serious enough to require it.

Mild cases of perspiration are benefited by bathing the feet in water as hot as can be borne to which a teaspoon of common baking soda has been added. Another good wash is one or two drams of alum dissolved in a pint of alcohol and added to your foot bath in the same proportion—a teaspoonful to a basin of water.

In cases of excessive perspiration bathe your feet in hot salt water. Dry them carefully and apply the following lotion: One grain of permanganate of potash, and one ounce of distilled water. Apply this lotion with a piece of soft gauze. Then dust your feet with talcum powder.

Change your stockings at least once a day and if you are troubled with excessive perspiration change them twice a day until a remedy has been entirely effected.

VANATTA

The "Grange Dramatic" club will give a play next Tuesday evening, April 27, under the direction of Miss Frank Lock at the Vanatta township house. The play is of comic nature, and it is needless to say you will miss a great treat if unable to attend. Everybody welcome.

On Wednesday evening, April 28, the Grange of Chatham will give a program at Vanatta hall. All grangers invited.

Good Crowd Heard Hon. John F. Kramer

About 150 men were present at the men's meeting at the Fifth Street Baptist church yesterday, and listened to an inspiring address on "The Duty of a Christian," given by Hon. John F. Kramer, Democratic Floor Leader of the Ohio House of Representatives. Mr. Kramer compared the church to the military training school where recruits were to receive instructions and then to go out into the world to fight against the evils that God would have combated. The address was listened to with great earnestness and was highly appreciated by all the men.

Every Day Etiquette

Will you kindly tell me what is the proper way to reply to an invitation written on one's visiting card? asked Mazie.

"Such an invitation is acknowledged in the third person. Use note paper for the purpose," answered her mother.

Size doesn't count for everything. Many a big man doesn't come up to our expectations.

Your Boys and Girls

It is difficult to tell which is the most troublesome time for both child and mother: bath time or hair-combing time. Certain it is that the nerves of each are usually worn to a frazzle when these times are over. A dear little girl of my acquaintance goes gladly and gayly through both trying periods, because her wise mother makes them pleasant for her. Grace is fond of perfume. Last Christmas she found among her other gifts a pretty little cut-glass atomizer filled with a sweet and not too heavy toilet water. She was told that if she would go through the hair-combing time with patience she should have some of the sweetness in the bottle sprayed upon her complete coiffure.

The rose worked like a charm, for Mistress Grace found that there was no perfume for her upon the days she fretted and sulked and scolded at hairdressing time.

BANNER DAY FOR SUFFRAGE ON MAY FIRST

Plans for universal suffrage day are maturing throughout the country and indications point to larger demonstrations than those of last year.

The seventeenth congressional district conference of Ohio Woman's Suffrage association will be held in Newark on that day at Taylor hall, Y. M. C. A. building. Miss Elizabeth J. Hauser, chairman, Buckeye state organization committee presiding. Miss Zera du Pont, first vice president of the Ohio W. S. A., state speaker, will be present, and other delegates representing the six counties of this district. The delegates are to be instructed on the new plan of organization by congressional districts. "This plan," says Miss Hauser, "is not only going to give us a much better organization, with which to conduct our next campaign, but it is going to have a decided influence upon our congressmen."

The morning session, opening at 10:30, will be devoted to the business of organization and general discussion. The afternoon program at 2:30 will consist of music, question hour, and the address of the day by Mrs. Francis Gibson Richard, associate professor of English of Miami university and chairman of literature committee of the Ohio Federation of Women's Clubs, a forceful and convincing speaker, much in demand in all adjoining states on all such occasions.

Luncheon will be served at Mrs. Moore's tea rooms. Those wishing reservations should notify Mrs. E. S. Randolph, 261 West Church street. A large attendance is desired.

TOURISTS EAT LUNCHEON OFF NOVEL TABLE

Sunday at noon a party of tourists in an auto enjoyed the novel experience of eating off a rough box in which a dead body had been shipped several days before. The tourists, nine in number, drove up in front of Criss Brothers undertaking parlors in West Main street, and the women of the party spread papers over the box and then laid out the picnic luncheon, consisting of fried chicken, pickles, pie, bread and butter and cake. After enjoying their lunch they packed up and started west, evidently unaware that their festal board had been the shroud of a dead person a few days before.

On the evening of April 30 will be held the annual oratorical and spelling contests. The interest in these contests is very great. Each school will send their best talent. More have qualified to enter the spelling contest than ever before.

A number of school firms will have their representatives present with exhibits of their products. This alone should be a feature of great interest.

CHICAGO STRIKE MAY BE SETTLED WITHIN FEW DAYS

(Associated Press Telegram.)
Chicago, April 26.—With the strike of 16,000 union carpenters entering on its second week, the joint arbitration board, representing the carpenters district council and the carpenter contractors association, settled down today to work out a solution of the labor conflict.

Members of the union will begin to receive a strike benefit of \$5 a week if the differences between the men and employers are not settled before Friday. This fact, it was thought, will hasten a settlement of the strike, which particularly has stopped building operations and thrown 125,000 other workmen in Chicago out of employment.

The demand for a wage increase from 65 to 70 cents an hour, it was said, will be denied by the employers.

CLEAN-UP—PAINT UP.

Now go and spend your money for pure white lead and linseed oil, and see your residence is painted, according to the rules

of Hoyle. Your wife may have a new spring bonnet, imported and supremely smart, with beads and bugs and doodads on it, a triumph of the hatsmith's art; and you yourself may have new raiment, glad rags that might adorn a king, suggesting you've received the payment for those gold bricks you sold this spring; your sons and daughters may be wearing a lot of togs that can't be beat, and you'll imagine folks declaring that you abide on Easy street. But they will say to one another, "He puts his money on his back; he ought to hire a man and brother to paint his old disgraceful shack. With bogus pride his chest is swelling, he flaunts his gaudy rags all day, but the condition of his dwelling gives him and all his tribe away." Go get a brush that's good and dandy, a can of paint—I'll lend you mine—and paint your house and make it nobby, and help to make the village shine. Go, demonstrate that you're a dandy at boosting up the painter's trade, and men will say you are a dandy, and pat you on the shoulderblade.

REVOLVER DUEL WITH ATTACHES OF A THEATRE

(Associated Press Telegram.)
Louisville, Ky., April 26.—A band of boys ranging in age from 14 to 20 years, created a reign of terror in the central section of the city last night when they made an attack upon attaches of a moving picture house.

Revolvers were brought into play and about a dozen shots were fired at their pursuers by the boys, who had been soon routed. The chase led for several blocks through the most crowded section of the city, and there was a general rush for shelter when the shooting began.

Leroy Nichols, 15, was shot through the knee with his own revolver, during a struggle with an usher at the theatre for its possession. Nichols and one other lad were arrested.

A Dream-er.
Almost every one has dreamed of writing a poem, delivering a speech or making a witty remark that seemed at the time wonderfully brilliant, but that, recalled on waking, proved to be either commonplace or wholly meaningless. This is not always the case, however, as this story, which the Rev. Washington Gladden is fond of telling, proves.

"I dreamed," says Dr. Gladden, "that the old house that formerly stood near my church was still there and that old Mr. Deshler, who has been dead many years, still lived in it. I also knew that his old dog, George, who never failed to bark at me when I passed the house, still lived. In my dream I was passing the house when the door opened and the old gentleman came out, followed by George, who, as usual, rushed barking up to me.

"Now, now, George," said the old man, "you ought not to do that. You know that's a friend of ours. That's Dr. Gladden."

"Oh, I have met George before," I responded to the introduction. "In fact, George and I have for some time had a bowwowing acquaintance."—Exchange.

Riding in a Jirikisha.

When the European or American tourist first lands in Japan he at once demands a jirikisha. Having read of it and heard so much of it he wants an immediate experience of it as soon as he finds himself in the land of its birth. Almost any day one may see a procession of men and women, ashore for a day or two from a steamer in port, making their way up the crowded thoroughfares of Tokyo, sitting, rather awkwardly in their jirikishas, trembling unbalanced over the axle, not knowing whether the thing is going to tip backward or fall forward, so loosey does the pulley seem to hold the shafts. The first time one gets into a jirikisha he always feels like a baby, and this gawky sensation coupled with that of the uncertainty of one's position in balancing it, renders the experience not quite so pleasant as anticipated. But the only way for comfort is to sit back at one's ease and leave the responsibility to the man who pulls it.—Japan Magazine.

To the Manner Born.
In "Hamlet" act 1, scene 4, occur these lines:

Ax, marry, but
But to my mind, though I am native here
And to the manner born, it is a custom
More honored in the breach than the observance.

Some have maintained that in this case "manner" should be spelled "manor," because the former was an old variant spelling of the latter. The phrase would then be applied to a person accustomed to the usages of a locality. But the weight of opinion favors "manner" as used, for instance, by Swinburne in the sentence, "He has not the eyes and nerves of one to the manner born." In this case the phrase refers to one having a lifelong acquaintance with given conditions and customs, regardless of whether they are associated with a single locality.—Philadelphia Press.

CONDENSED CROP REPORT ISSUED BY NEWARK TRUST CO.

The Newark Trust company's April crop report says in part: In discussing crops at this season of the year we naturally turn first to winter wheat and rye condition, largely because it is possible even now to get some idea of the ultimate production of these two grains. From the farmer's standpoint, however, spring wheat, oats, barley, corn and other sown and planted crops are of really more vital interest. The winter wheat and rye are in the ground already but the vital thing is what acreage can be put into other crops with reasonable assurance of finding a ready market and good prices for the product. We will come to that a little later in this report.

Winter wheat condition for the country as a whole is a shade better than it was on the first of last December and is more than 1 per cent better than the ten year average condition at this date. The condition is, however, nearly 7 per cent poorer than was last year's crop at this time so that it is extremely fortunate that we have such a tremendous acreage, the unadjusted average being 10 per cent larger than the preceding year's area. The present condition would indicate a crop of 619,000,000 bushels but there is good reason to expect an improvement in the condition and a crop of 700 million bushels is in prospect.

Recent rains in the eastern and central states have already started the improvement and winter wheat condition a month from now will undoubtedly show a tremendous gain in the states which suffered from the dry March. The whole winter wheat area, totaling 41,263 thousand acres, promises, according to present showing, a crop averaging about 15 bushels per acre.

The condition of rye is only a fraction of one per cent below the ten-year average, although nearly two per cent below a year ago. The acreage of rye is estimated at 2,900 thousand and according to present condition reports we have to expect as large a crop of rye as we ever harvested.

Acreage being prepared for the principal crops for this year is estimated as follows:

	Thousand acres.
Corn	105,000
Spring wheat	20,000
Oats	38,000
Barley	7,500
Buckwheat	800
Flax	2,900
Rice	799
White potatoes	3,750
Sweet potatoes	575
Tobacco	1,350
Cotton	34,100
Sugar Beets	590

It is expected that the clip of wool from about 37 million sheep averaging per fleece slightly under 7 pounds, will give us 256,000 thousand pounds of wool compared with 296,175 thousand pounds last year, and 304,043 thousand pounds the previous year. There were before the lambing season began 50 million sheep in the country and their estimated value was 225 million dollars, an increase in value of more than one dollar per head in the last three years. The wool clip for the year is sure to be short. Stocks of wool in the hands of manufacturers on the first of these year totaled 40 million pounds compared with 23 million pounds a year ago. This might indicate an over-supply of wool and a glutted market were it not for the prospect of a light clip this year.

Although the total number of horses being exported is not really large the loss of these animals will have its effect upon the supply of horses in this country. In a single month we have exported as high as 35 thousand horses and 7 thousand mules, while a year ago in the same month we exported 11 hundred horses and 4 hundred mules. Our total export of horses and mules in January this year was valued at over nine million dollars, while in January last year our exports were valued at fifty thousand dollars. The average value of each horse exported in January, 1914, was 138 dollars and each mule, 115 dollars while in January of this year the exported animals were valued at 224 dollars for horses and 150 dollars for mules. Horse and mule values are advancing and the advance will continue for a long period as, even should the war end, there will be a demand for domestic animals for agricultural use to replace those destroyed in the war.

The fact that the world, as a whole, sowed more winter wheat last fall than usual, by about 14 per cent, need cause no concern to the wheat grower. The countries on which figures are obtainable and which are given in this estimate include among the

belligerent nations, British India, Canada, England, Wales and Luxembourg.

The total exports of wheat manufactured and unmanufactured since last harvest up to the first of March were 245,434 thousand bushels. For the same period of the previous year exports were 109,135 thousand bushels and in 1912-13 were 102,934 thousand bushels. Previous to the last named date we had never exported as much as 100 million bushels of wheat in a single year. Our exports for eight months are already 100 million bushels in excess of our total exports for the twelve preceding months and our exports for March, April, May and June will probably be close to 100 million bushels more, making a total of 200 million bushels of wheat exported over and above the previous high record which was made the previous year. Total wheat on hand, including seed, is 14 million bushels less than a year ago, the amount on farms being fully as much as a year ago, the shortage being shown in stocks of country mills and elevators mainly. With our additional need for seed wheat, on account of a large acreage to be sown, we are short more than 20 million bushels as compared with a year ago and only have 91 million bushels to export with a probable demand for 100 million bushels.

WOMEN DELEGATES ARE MAROONED ON STEAMER NOORDAM

ASSOCIATED PRESS TELEGRAM. London, April 26.—The steamer Noordam, with 40 American women delegates to The Hague Peace congress among its passengers, is anchored in the Downs, unable to obtain permission to proceed up the channel to Rotterdam. Jane Adams has sent an appeal to United States Ambassador Page, urging him to enlist the aid of the American government to secure the release of the marooned delegates and enable them to arrive at The Hague in time for the conference, which opens Wednesday.

TO DARKEN HAIR APPLY SAGE TEA

A few applications of Sage Tea and Sulphur brings back its vigor, color, gloss and thickness.

Common garden sage brewed into a heavy tea with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant, remove every bit of dandruff, stop scalp itching and falling hair. Just a few applications will prove a revelation if your hair is fading, gray or dry, scraggly and thin. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use tonic, costing about 50 cents a large bottle at drug stores, known as "Wyeth's Sage and Sulphur Hair Remedy," thus avoiding a lot of fuss.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant. SAY CANADIAN CITIES WILL BE BOMBARDED

(ASSOCIATED PRESS TELEGRAM)

Portland, Oregon, April 26.—Headed for the Atlantic coast of Canada is a German squadron bent on bombarding important cities and fortifications there, according to a letter received today by Captain Carl Brauch, master of the German bark Deibek, interned there since July 23, from a friend who is a deck officer of the German navy. "Eight days before the German fleet bombarded Scarborough, Hartlepool and other ports, I received a letter from the same friend, telling me that the German fleet would strike for the British coast and I thought that statement was laughable," said Captain Brauch.

"Since it came to pass, I am convinced that the move of the squadron to the Canadian coast may not be a myth." The letter has been on the way since March 24.

SUNDAY NIGHT FIRE DAMAGES HOME WHILE FAMILY IS ABSENT

Fire of unknown origin, which started in a summer kitchen, destroyed this portion of the home of Gus Weigand, 140 West Main street Sunday night at 8:15 o'clock and damaged the rear portion of the main part of the house. The fire was discovered by neighbors who were attracted by the smoke issuing from the rear of the house. Mr. Weigand and family were absent from the home at the time. A pet canary, in a cage in the dining room was suffocated by the dense smoke which filled the entire house. The fire department made quick work of extinguishing the blaze after reaching the scene.

RECIPE TO CLEAR A PIMPLY SKIN

Pimples are Impurities Seeking an Outlet Through Skin Pores.

Pimples, sores and boils usually result from toxins, poisons and impurities which are generated in the bowels and then absorbed into the blood through the very ducts which should absorb only nourishment to sustain the body.

It is the function of the kidneys to filter impurities from the blood and cast them out in the form of urine, but in many instances the bowels create more toxins and impurities than the kidneys can eliminate, then the blood uses the skin pores as the best means of getting rid of these impurities which often break out all over the skin in the form of pimples.

The surest way to clear the skin of these eruptions, says a noted authority, is to get from any pharmacy about four ounces of Jad salts and take a tablespoonful in a glass of hot water each morning before breakfast for one week. This will prevent the formation of toxins in the bowels. It also stimulates the kidneys to normal activity, thus coaxing them to filter the blood of impurities and clearing the skin of pimples.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia. Here you have a pleasant, effervescent drink which usually makes pimples disappear; cleanses the blood and is excellent for the kidneys as well.

No Trained Nurse. Mrs. Finicky (entering kitchen with newspaper)—Norah, a celebrated doctor says that brooms are full of microbes, so hereafter you'll have to give your broom an antiseptic bath every day.

Norah—Sheure O'll not! Next thing ye'll be askin' me to give it massage treatments and hippydermic injections, an' ye may as well understand right now that O'm no trained nurse.—Boston Transcript.

TRY THIS TO
DARKEN GRAY HAIRHarmless—Not a Dye—Acts on Hair
Roots.

If your hair is gray streaked with gray, prematurely gray, thin or falling, apply, for a few times, Q-Ban Hair Color Restorer on your hair and scalp with the guarantee of a reliable dealer that it won't cost you one cent unless it beautifully darkens your gray hair and promotes its growth. It acts on the hair roots making gray hair healthy so the gray hair is beautifully and quickly darkened so evenly, naturally and thoroughly that no one can tell it has been used. In addition Q-Ban stops itching scalp, dandruff and falling hair, and makes gray hair thick, fluffy, soft, lustrous, beautifully dark and abundant. Q-Ban is not sticky or messy, harmless and makes scalp and hair clean and feel pleasant. 50c for a big 7 oz. bottle. At R. W. Smith's drug store, Newark, O. CANADIANS
CAPTURED IN
THE FIGHTING

(ASSOCIATED PRESS TELEGRAM)

Berlin, April 26.—By wireless to Sayville, N. Y.—In the official statement given out today by the German general army headquarters, it was announced that more than 1000 Canadians had been captured in the fighting around Ypres, Belgium.

The text of the statement follows: "The Germans hold Lizerne, on the west bank of the canal, which the French pretend to have reconquered. Also on the east of the canal the conquered terrain remains in the possession of the Germans. The number of cannon taken by the Germans rose to 45, including four English.

"Northwest of Zonnebeke, the German attacks continue. More than 1000 Canadians were taken prisoners. The total number of prisoners rose to 5000. They include Senegal negroes, English, Turks, Hindus, French, Canadians, Zouaves and Algerians.

"In the Champagne region, north of Beausejour, two French night attacks were repulsed. The German attacks progressed along several mountain saddles, until the height to the west of Les Eparges was taken by storm. Several hundred French soldiers were taken prisoners. Several machine guns also were captured.

"In the Ailly forest, the enemy's advance failed.

"In the Vosges, the Germans took back Hartmannsweilerkopf. In this engagement, eleven officers and 749 French soldiers were made prisoners and six mine throwers and four machine guns captured.

"Northwest of Ciechanow, feeble Russian night attacks were repulsed and the situation on the east front remains unchanged."

RHEUMATISM A MYSTERY

Some diseases give immunity from another attack but rheumatism works just the other way.

Every attack of rheumatism invites another. Worse than that it reduces the body's power so that each attack is worse than the one before.

If any disease needs curing early it is rheumatism but there is almost no disease which physicians find more difficult to treat successfully. When a medicine does help rheumatism nobody knows how or why it does it.

All authorities agree that the blood becomes thin with alarming rapidity as rheumatism develops. Maintaining the quality of the blood therefore is a reasonable way of preventing and combating rheumatism. That it works out in fact is shown by the beneficial results in the treatment of rheumatism, acute, muscular and articular, with the blood tonic, Dr. Williams' Pink Pills.

That hundreds who take Dr. Williams' Pink Pills for their rheumatism get well is a fact beyond dispute. That the rheumatism does not return as long as the blood is kept rich and red is equally true. Write Dr. Williams Medicine Co., Schenectady, N. Y., for the free pamphlet, "Building Up the Blood," and kindly mention this paper. Your own druggist sells Dr. Williams' Pink Pills.

ROOSEVELT

(Continued from Page 1.)

Central New York; what Hitchcock said as to the effect outside. Now, if you and those like you fear that I shall ask you to cut your throats your fear is groundless. But my judgment is that the convention will nominate Hughes, and that it would hurt very much more not to nominate him than to nominate him, although it will undoubtedly hurt also to nominate him."

On August 27 Col. Roosevelt wrote to Mr. Parsons who at that time was a New York congressman, from the White House. In part the letter follows:

"You are very strong in your statements of what the men under you said as to Mr. Hughes' unpopularity and I certainly understand you to say that Bennett, felt exactly as you did. When Bennett tells me, as the local leaders like Strassburger tell me, that the sentiment is very strong for the renomination of Hughes, I have got to take notice of it. I entirely agree with all you say as to your just reasons for complaint against Governor Hughes' and furthermore with all you say as to the fact that many of those who desire his renomination desire it chiefly for the purpose of hurting the Republican party. Moreover, my dear Parsons, you can hardly seriously suppose that, to quote your own words, I am trying to 'treat you as a puppet.'"

"That is, if you mean when you say 'those in charge of the national campaign' which of course I am not. On the contrary I have written again and again to Taft and to Hitchcock not to make any open statement, and I have not the slightest intention of 'telling you what to do' and never will tell the newspapers that you will be told what to do, and never have thought of so telling them. You wrote me requesting to see me and asking that I say nothing until I had seen you. I saw you. We went over the situation. I afterwards saw Bennett and various others, including Sherman and the situation as they related it was so totally different that I felt that I ought to tell you that this, with other knowledge brought to me had made me alter my mind as to what was the wise thing to do. But surely my letter most explicitly disclaims any intention to dictate to you."

"Still I absolutely agree with you that there are many cross currents; that there are many currents against Hughes, but I don't see who you are going to put in his place who won't be weaker."

"P. S.—Of course I want the fullest and most open expression of preference at the primaries; that I'll stand heartily for whatever you, Fassett and the rest of the leaders finally do and have no intention of 'forcing the nomination' or of trying to do so, but unless you object I should like as a good Republican and party man and a staunch believer in you to tell you my judgment for whatever it is worth."

On Sept. 16, Col. Roosevelt wrote this letter to Mr. Barnes:

"I am very glad you joined in making the nomination of Hughes unanimous. I think it will be wise and patriotic thing to do. After the election I shall want to see you in Washington and talk over matters with you."

On Nov. 4, 1908, election day, Col. Roosevelt wrote this to Mr. Barnes from the White House:

"Dear Mr. Barnes:—Good for you. We are to be heartily congratulated on the whole business, national and state."

Sincerely yours,

Theodore Roosevelt.

Replies by Mr. Barnes to some of the colonel's letters were also read to the jury.

The witness identified all of the letters and declared them to be authentic.

(ASSOCIATED PRESS TELEGRAM)

Syracuse, N. Y., April 26.—Theodore Roosevelt resumed the witness stand in the supreme court here today for further cross-examination by counsel for William Barnes. It was the former president's fifth day as a witness.

Attorneys for Mr. Barnes said they also had ready a series of questions to put to the colonel concerning certain

things he did while president of the United States and later.

A big bundle of letters written to or by the colonel was taken into the courtroom by counsel for Mr. Barnes. Although Syracuse apparently has become used to having Colonel Roosevelt as its guest, the crowd that flocked in front of the doors of the courtroom here this morning were larger than on any day last week.

Mr. Barnes, it was said, planned to leave here this forenoon for Albany, where he will attend the state constitutional convention.

When court opened a stipulation between counsel that depositions of four unnamed witnesses outside the state should have the same effect as if the witness appeared on the stand, was read into the record. Mr. Tins, Mr. Barnes' attorney, then put into the record letters written by Mr. Barnes to Colonel Roosevelt and by Colonel Roosevelt to Mr. Barnes and to Herbert Parsons. The latter letters, dated August 21, 1908, were nearly identical in contents and phraseology. In one letter Mr. Barnes discussed Governor Hughes. He said that should Hughes be elected he would set up a political machine and that all politicians who opposed him would have to "sneak in the back door or get out of politics."

The reply of Colonel Roosevelt's letter written at Oyster Bay read:

"My Dear Mr. Barnes:—Yesterday I saw Sherman, Bennett, George Smith, Mike Dady, Cocks and Hitchcock, chairman of the National committee here. I have been carefully going into the Hughes matter since I saw you. I appreciate to the full the force of the arguments you urged against his renomination. It is not pleasant for me to support a man who has wantonly behaved badly to the very men who did most in securing his selection. I would approve his turning them down in the public interest, but I object to its being done wantonly."

AMERICAN IS
SENTENCED TO
BE EXECUTED

(ASSOCIATED PRESS TELEGRAM)

Washington, April 26.—Phillip E. McCleary, an American newspaper correspondent at Vera Cruz has been imprisoned and sentenced to be shot by Carranza authorities for having sent out uncensored news dispatches. Secretary Bryan received an appeal for aid today from John W. Roberts, another American correspondent there and instructed Consul Stillman to take the question up at once with General Carranza. No official report on the affair had reached the department.

Various military movements in Mexico were reported today in official dispatches.

Carranza troops from Tampico are being brought to Vera Cruz and sent inland by rail. General Carranza has released the American steamer Bonito Juarez, detained on the west coast on a charge of carrying arms for Villa forces. Yaqui Indians operating in Sonora are charged with numerous raids and murders. In a recent attack on the ranch of the Richardson Construction Co. in the Yaqui valley, they were repulsed.

VALUABLE DISCOVERY.

Another German scientist has done the world a good turn. He has discovered that this good old world which all love so well that not many are anxious to leave it, will exist for many hundreds of years and then will get an extension. We feel better.—Milwaukee Sentinel.

REFUGEES REACH PARIS.

Paris, April 26.—A considerable number of refugees from the Ypres region who were evicted from their homes by the authorities for military reasons, have arrived in Paris.

Houses of Driftwood.

Port Stanley, the capital of the Falkland Islands, is a small, clean town, very much resembling some of the villages in the Orkneys and Shetlands. The houses occupied by the government officials and the chief employees of the Falkland Islands company are stone built, with slate roofs, but most of the others are built of driftwood and old ships' timbers. The country round Port Stanley is a huge peat moor, more or less impassable, according to the time of year, and there are no roads fit for vehicular traffic leading out of the town. Throughout the whole of the islands there are no trees indigenous to the soil, and the tallest plants, except a species known as tussock grass, which grows from six to ten feet high, do not exceed the height of the common English furze. Agriculture is virtually impossible, for wheat will never ripen and oats, rye and barley but seldom. Potatoes are unknown as a crop, and the ordinary English vegetables will not mature.—Pall Mall Gazette.

Science and Discoveries.

"There is a widespread but erroneous belief in official circles and among wealthy philanthropists," writes Sir Ray Lankester in the London Telegraph, "to the effect that you can hire a scientific discoverer and then say to him 'Discover me this' or 'Discover me that' (naming to him a possible and greatly desired piece of new knowledge) and that he will thereupon proceed right away to make the discovery which you want. * * * But a valuable and important scientific discovery cannot be produced directly in response to orders given and money expended."

"You cannot manufacture scientific discovery like soap. The great difficulty, in the first place, is to catch that rare and evasive creature—a scientific discoverer—and when you have found him you have to humor him and let him do as he fancies. Then he will discover things, but probably not the things which either you or he wanted or expected."
